

[www.polypack.co.nz](http://www.polypack.co.nz)

I am interested in taking some or all of the following medications, the same or similar to those in the proposed polypill, in order to reduce my risk of cardiovascular disease.

aspirin	100 mg e/c	Reduce clotting
simvastatin	20 mg	Reduce cholesterol
bendrofluazide	2.5 mg	Reduce blood pressure
enalapril	5mg	Reduce blood pressure
atenolol	50mg	Reduce blood pressure

I understand that these medicines can be packaged into daily sachets by Polypack in order to make it easier to take. Boxed rolls of 90 sachets are dispensed and the cost is \$1 a day. The prescription must be posted to: Polypack, PO Box 364, Tauranga 3140

My cardiovascular disease risk factors are (tick all that apply):

Family history of cardiovascular disease	
Diabetes	
Obesity	
Raised cholesterol	
Raised blood pressure	
Lack of exercise	
Current or former smoker	
Stress
